INDEX

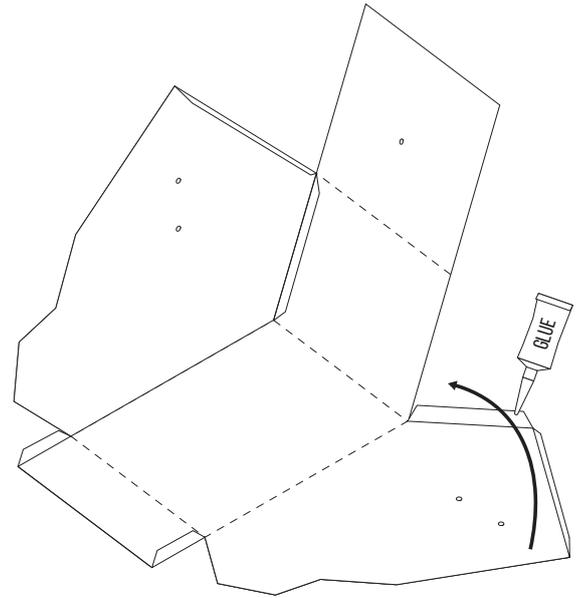

**Video instructions and other inspirations can be found on our website:
www.kokocardboards.com, and on instagram: [koko_cardboards](https://www.instagram.com/koko_cardboards).**

1. Fold the piece A along the visible fold lines.

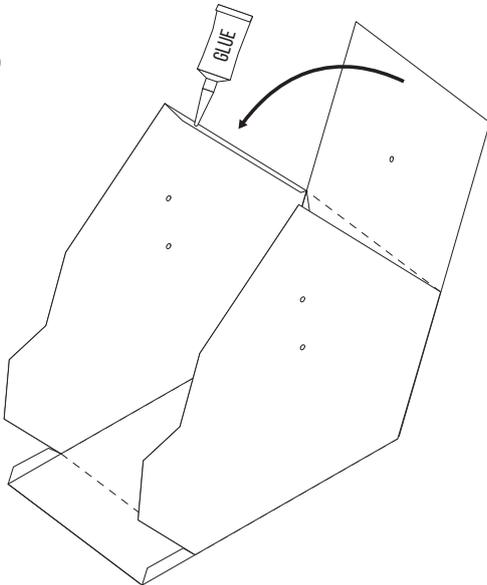

2. Glue tabs of the piece A in order shown in pictures a); b); c).

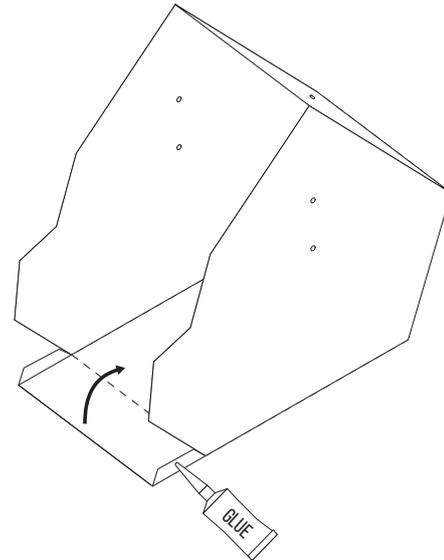

a)

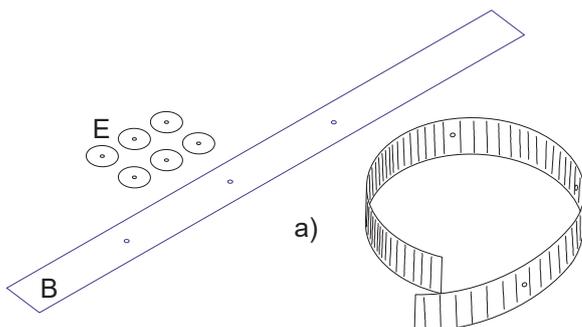

b)

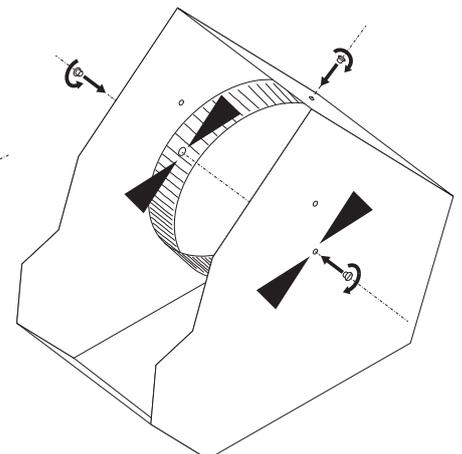

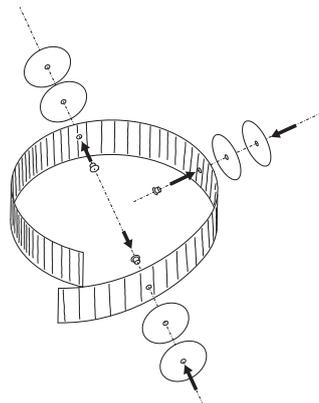

c)

3. Shape the headband (B) with your hands so that the belt is rounded (break the belt every few millimetres). Then fasten the belt with the included screws and washers (E) to the mask base, in the places indicated in the picture. Between the headband and the base, place two washers (E), two pieces for each screw.

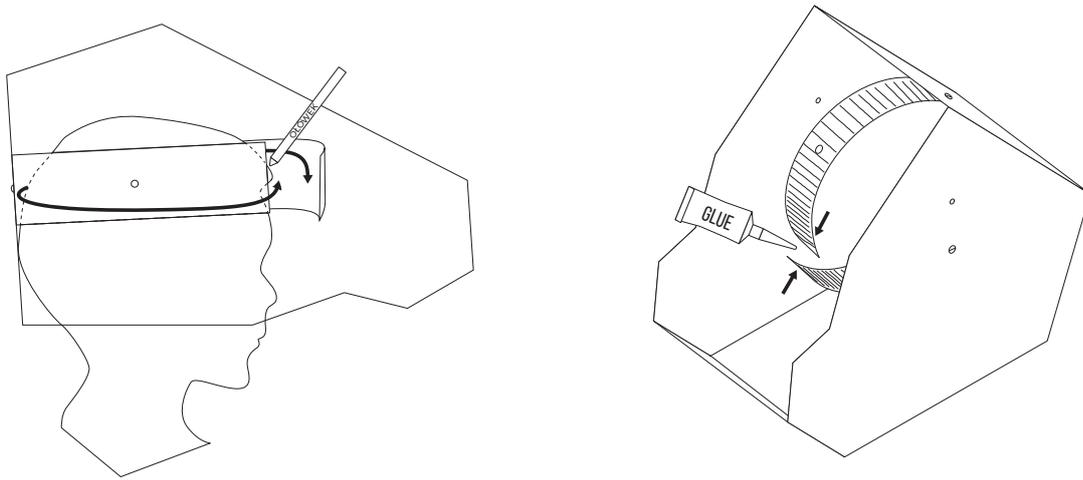

b)

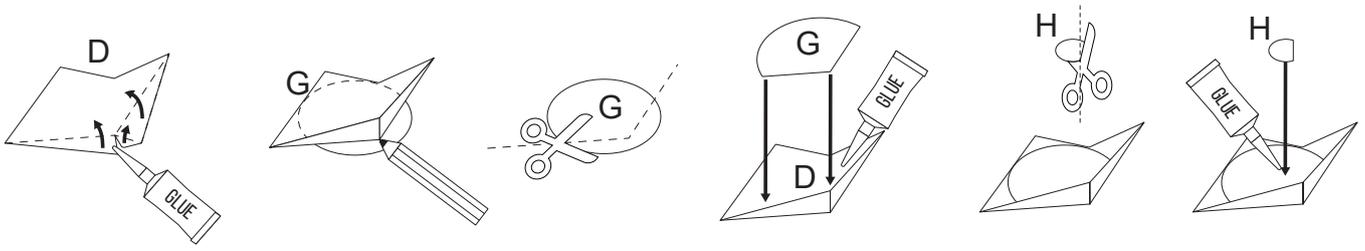

* Make sure the screws are tightly fastened.

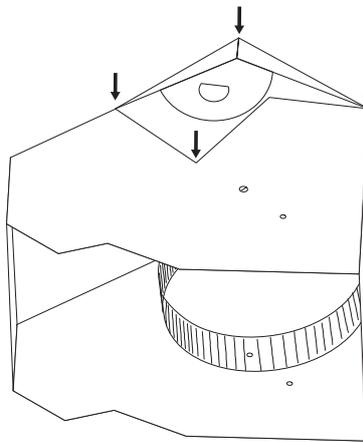

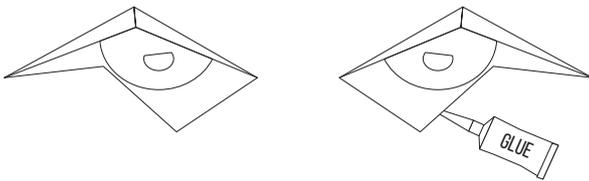

4. Put the mask on the child's head and measure / adjust the size of the headband. Mark with a pencil, take off the mask and glue the headband.

5. Fold the eye sockets (D), glue the finished pieces together along the tabs. Put the eye sockets on large paper circles (G) and trace the top edges with a pencil, then cut out and attach to the eye socket. Cut out the small black circle (H) and attach it on the eye. Glue the "eye sockets" to the mask in places indicated in the picture.

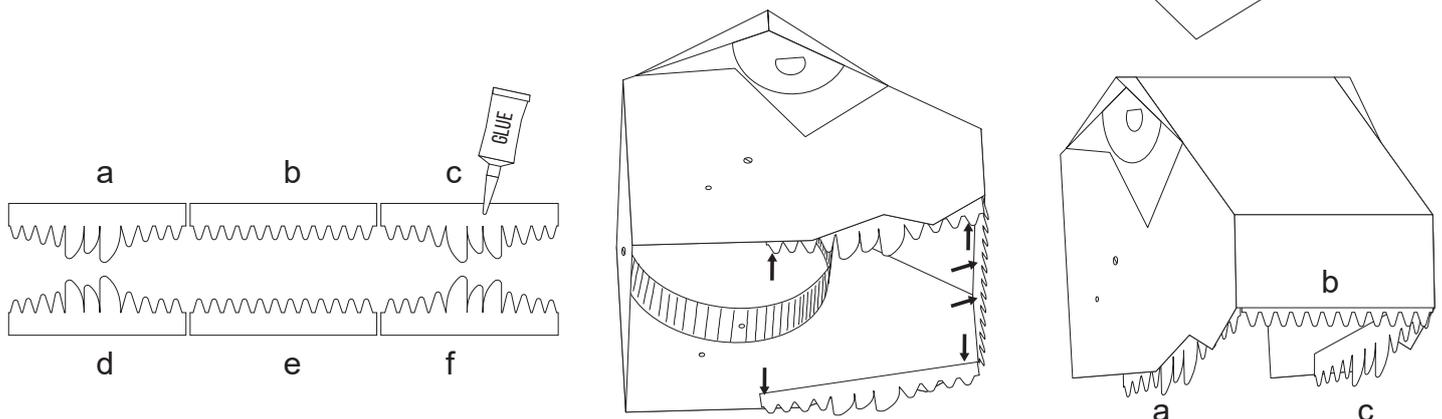

RIGHT EYE SOCKET LEFT EYE SOCKET

5. Cut out 6 pieces with teeth (F).

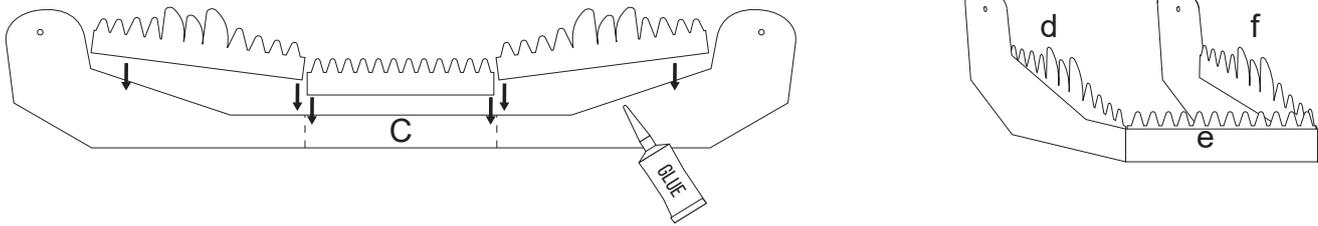

Attach the three pieces (a, b, c) to the upper jaw (piece A)

* Attach the teeth from the inside.

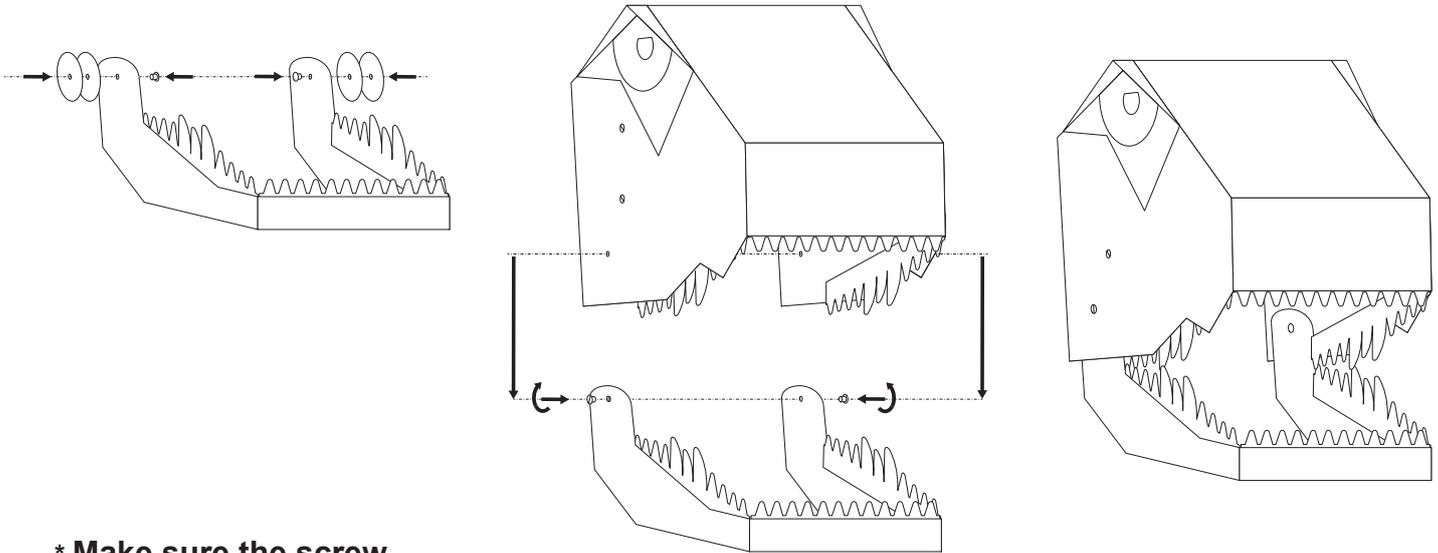

Attach the three pieces (d, e, f) to the piece C (lower jaw).

*Attach the teeth from the inside.

6. Fasten the lower jaw with the screws from the inside of the piece C. For each hole use two washers.

* **Make sure the screw is tightly fastened.**

* **Attach the protective foams (J) from the inside of the mask in places for screws. Use one protective foam for each screw.**
